YOUNESS AABIL

Engineering Student | Electrical, Electronic & Control Engineering (EEEA)

youness.aabil@gmail.com • +33 7 58 72 86 21 • Toulouse, France • Driver's License

ACADEMIC SUMMARY & OBJECTIVES

First-year Engineering Student at ENSEEIHT (Toulouse INP) following an intensive two-year STEM foundation program (MPSI/MP). Analytical, rigorous, and highly adaptable, I am dedicated to mastering advanced engineering fundamentals. My hands-on field experience has developed my autonomy, operational risk management, and team collaboration skills, providing a strong foundation for managing complex technical projects.

EDUCATION

Master's Degree in Engineering — Electrical, Electronic & Control Engineering **2026 – Present**

ENSEEIHT, Toulouse INP (France)

Intensive Two-Year STEM Foundation Program (CPGE) — MPSI / MP **2024 – 2026**

Mohamed Réda Slaoui Prep School, Agadir (Morocco) — Advanced coursework in Mathematics, Physics, and Engineering Sciences.

FIELD & WORK EXPERIENCE

Versatile Assistant & Maintenance Technician June – Aug. 2024

Retail Store, Ouled Teima (Morocco)

- **Maintenance & Equipment:** Inspected, maintained, and repaired store equipment, ensuring uninterrupted operational workflow.
- **Logistics & Organization:** Managed cash register operations, inventory tracking, and sales area optimization.
- **Customer Relations:** Welcomed, advised, and assisted customers with professionalism and attention to detail.

Construction Site Assistant / General Laborer Aug. 2023

Building & Civil Engineering Sector

- **Safety & Compliance:** Strictly followed site safety protocols and consistently wore Personal Protective Equipment (PPE).
- **Teamwork:** Integrated into an operational field team and actively supported daily construction tasks.
- **Constraint Management:** Gained firsthand awareness of material constraints, strict schedule deadlines, and physical endurance.

HONORS & PROJECTS

- **Finalist, Moroccan Physics Olympiad (2024 Edition):** Selected among the top national physics students, demonstrating strong analytical capability and scientific rigor.

SKILLS & ADDITIONAL INFORMATION

Technical & Engineering Skills: Analog & Digital Electronics, Stochastic Modeling & Probability Analysis, MS Office, equipment maintenance, stock management.

Soft Skills: Rigor, organization, adaptability, teamwork, stress tolerance, strict adherence to safety guidelines.

Languages: French (Fluent / Language of instruction), English (Professional / Technical), Arabic (Native).

Interests: Music, scientific and literary reading, tech news and engineering updates.
